One of the consequences of the revised Second Extended Round and a Casual Vacancy Round undertaken by the K.E.A would be that candidates, who have accepted the seats allotted to them at the Second Round but who have now been permitted to participate in the extended Second Round and Casual Vacancy Round may have opted for opt for and have been selected to an upgraded seat, in which event the candidates, who had paid the fees would be entitled to refund by the respective colleges.

This Authority would make it clear that such refund will be given without any further ado. Any complaint in this regard would be viewed seriously and strict action shall be taken against such college which may dither in refunding the fees and in returning the original documents to the candidate.
